

# How To Set Up A JustGiving Page

[Click here to set up your JustGiving page for Rose Road](#) 

- Sign Up or Log In
  - Select what you are doing.
    - If you are taking part in an organised event such as the London Marathon find your event and it will take you through to the Rose Road fundraiser for that event.
    - Celebrate an occasion, create a remembrance page, or sign up to do a personal challenge.
  - Fill in the details for your page:
    - Choose your web address - this is the link you'll be sharing with friends and family when asking them to donate.
    - Click the 'Create your page' button at the bottom.
  - Now you can start on the fun stuff - personalising your page and start sharing it friends and family.

## More Tips:

Make sure to tell your story. Set the scene, give yourself a small introduction for those who visit your page who might not know you well. Talk about why you want to raise money and give lots of information about Rose Road and the services provided. Speak to the fundraising team for some personal stories you can share about how those services have impacted the lives of families.

Make sure to update often, share photo's of your preparation or training, you can use photo's from Rose Road's social media pages of the young people who depend on the money from fundraisers like yourself. Use different types of media including videos and links for people to engage with. You can include stats from the fundraising team, for example: Rose Road needs to raise £500,000 a year just to keep the current services running.

Make sure you **SHARE SHARE SHARE**, ask the fundraising team to share it on Rose Road's social media, send it out to everyone you know. Advertise in various places.

Don't forget to thank people who donate as you go along and make sure to do this again when you have reached your target or after your event / challenge.
