

## **Senior Management Team**

The Association has an excellent Senior Management Team with a range of skills and experience from both the voluntary and private sectors.

### **Juno Hollyhock, Chief Executive**

I have worked for the Rose Road Association since May 2017, this is my first care sector role and I have had a lot to learn over the last few years. Not to mention a certain pandemic!

I have worked with national and local organisations that support children and young people both in the statutory and voluntary sectors for the last 30 years.

In my spare time I sit on the Trust Board of the Solent Special Education Trust and the Story Works charity.

I am married to Kevin and we have a very bouncy dog called Winston who is my loyal companion at home and at work where he brings smiles to the faces of Rose Road staff and families.

Working together with our Trustees and Senior Management Team I am proud to continue Rose Road's history of outstanding work. We are fortunate to also have a fantastic group of Ambassadors, an inspirational team of staff, and a wide community of wonderful supporters.

### **Carol Dixon, Director of Family Services**

I have worked for Rose Road since 2011, when we won the contract to deliver the Parent Voice service across the whole of Hampshire. I started as Participation Coordinator, moving to the Programme Manager role in 2014. We now deliver a range of information, advice and participation services to families in Hampshire, Dorset, Bournemouth, Poole, West Berkshire, Portsmouth and Southampton, and I became Director of Family Services in April 2016.

I oversee our range of Family Services and the family services central communications team. I work strategically with our local authority partners and am always looking for new opportunities to expand our services so that more families can benefit from the Rose Road approach to information and participation.

As a parent of two disabled young adults I am passionate about empowering families by providing them with the information they need. Rose Road is full of passionate, caring people who make a difference to families every day and I am proud to be a part of that.

### **Tina Fullbrook, Head of Care**

Tina started working for Rose Road as a volunteer almost 20 years ago and now leads our care teams. She oversees our Respite, Outreach and Playschemes Services.

I've known many of the children and young adults who stay with us for most of their lives. I love seeing them progress with the help of our dedicated teams. Every day at Rose Road is different!

### **Chloe Atkins, Head of Fundraising**

I started working at Rose Road in 2017 and run our Fundraising Team. Every year we need to raise £500,000 in addition to our earned income - I work with a great team and plenty of volunteers to help us achieve this.

I love working at Rose Road because every day, I see the smiles on the faces of the children and young people we support and the dedication and commitment of the staff who support them. I see the difference that the generosity of our supporters and funders make to the families we support.

## **Neil Evans, Director of Finance**

I have 20 years' experience of working in the charity sector as a Director of Finance. I currently head up Solent Support Solutions, a not for profit company created by the Rose Road Association and Solent Mind in April 2012.

Solent Support Solutions employs 9 staff who provide Finance and IT services to the two founder charities.

As part of the Senior Management Team it is my responsibility to ensure the long term financial viability of the Association, secure and manage the financial resources needed to deliver the objectives in the business plan, manage the financial risks which threaten the delivery of the Association's strategy, provide efficient financial processes and provide business support and quality decision making.
